Benefits from Pro Biotic Flora with FOS™

HELPS to restore the good intestinal bacteria that are destroyed by antibiotics, meat products and bad bacteria in our diets.

ACTS on the body's "second immune system."

PROVEN to increase digestion and elimination of toxic waste.

WARDS off disease by suppressing harmful bacteria growth and eliminating potential floating immune complexes.

HELPS SUPPORT and produce enzymes which are essential to proper intestinal function.

Contain no artificial colors or flavors.

Enzyme activity is determined and reported to standard Food and Chemical Codex procedures accepted by the FDA

Are you destroying your "Second Immune System?" Have you ever used antibiotics? Do you ever eat meat? If so, you need to boost your body's "second immune system," the intestinal track.

PRO-BIOTICS with FOS™

Did you know that if you are over 20 years old and you eat one or more meals a day that contain meat based proteins you have literally destroyed your second immune system? Enriching Gifts Pro-Biotics destroy bacteria just like antibiotics. However, unlike antibiotics which destroy all bacteria, even the ones we need in our bodies. Enriching Gifts Pro-Biotics specialize in destroy anaerobic or parasitic bacteria. They destroy the "Bad" bacteria that comes in from your daily diet. Enriching Gifts Pro-Biotic with FOS™ has 8 "good-guy" bacteria strains you need in your system to help suppress harmful anaerobic "bad guy" bacteria, improve absorption of minerals, and reduce toxins in your bloodstream and GI tract.

Having 'friendly' bacteria in the intestines is one of the keys to boosting the immune system. These 'friendly' bacteria are destroyed by such common factors as carbonated drinks, laxatives, birth control pills, coffee alcohol, aging, stress, and antibiotics taken for infections, colds, and flu's. (even antibiotics found in the meat we eat.)

Friendly aerobic bacterial strains can aid in digestion and elimination, (suppressing harmful anaerobic bacteria) improves absorption of minerals and reduces toxins in the bloodstream and GI tract.

Enriching Gifts Pro-Biotic Flora with FOS has not one, but eight of these 'good guy' bacterial strains. These eight strains are selected and manufactured according to the proprietary processes developed by Dr. Khem Shahani, the world's leading expert in the area of friendly bacteria.

Enriching Gifts Professional Advisory Council and Ronald K. Schneider have brought together their accumulated knowledge and experience in the holistic nutritional field to develop and formulate this very effective product, resulting in the finest flora available on the market today.

PRO-BIOTICS with FOS™

60 Capsules per Bottle / 200 mg

Contains the following Proprietary Blend:

- L. Acidophilus DDS-1™
- L. Bifidum
- L. Bulgaricus
